Kii™

SYNC/CHARGE CONNECTOR
FOR APPLE AND MICRO-USB DEVICES

KII IS A LIGHTWEIGHT APPLE OR MICRO-USB TO USB CONNECTOR THAT FITS ON YOUR KEYCHAIN.

Kii allows you to charge and sync your Apple or Android devices without the need for a cable or Wi-Fi network.

IN USE

It's dual-sided: one end is an Apple or Micro-USB connector to connect to your device and the other is a USB to plug directly into your laptop.

The self-locking cap and flexible body ensures that Kii will stay securely on your keyring and won't break under pressure.

ALWAYS THERE WHEN YOU NEED IT

The perfect featherweight accessory, Kii's slim design means it fits perfectly on your existing keychain, and is ideal for travel.

CONNECTORS AND COLORS

Kii is available in Black or White for Apple Lightning or Micro-USB and Black for Apple 30-pin.

SPECIFICATIONS

Package Contents: One Kii, One Bluelounge Key Tag and One Key Chain.
